GPS-70G/804

UHF/GPS - Combi magnitic Multiband mobile antenna with 3 dBd Gain Whip

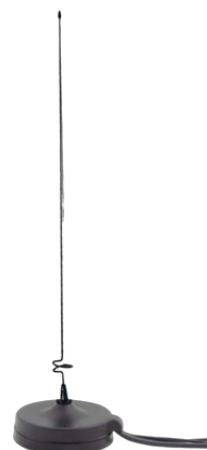

The GPS-70G/804 is a mobile antenna with a UHF gain whip and magnetic base for roof mounting. Combining an integrated GPS antenna and a 3dB gain UHF whip, specifically 380-500 MHz.

With a meticulously constructed base made of PA, it is durable and strong.

The whip is made of stainless steel, black chromed to withstand the harshest conditions.
